COBALT BOATS

SC SERIES

COBALT 30SC

An Innovative Revival of Tradition

Comes now the 30SC, the third in a series of remarkable watercraft, each representing Cobalt's unmistakable contributions to the revival of the outboard engine. Cobalt has been, by no means, the first manufacturer to offer knowledgeable boaters a newfound choice of improved powertrains. Rather, Cobalt has again sought to move purposefully to the ultimate possibilities of intelligent design, to at last bring to market boats redrawn, reoriented, reweighted, renewed toward a single purpose. That is, to add convenience and economy – and quiet, blessed quiet -- in a new way to the traditional Cobalt virtues of performance, handling, comfort, luxury, and room, lots of livable room.

Cobalt engineers understood that the simple slapping of a couple of high-horse Mercs on the stern of any old hull would not, could not an outboard-boat make. The dynamics of thrust and torque necessarily affect hull design. But now, the power of those high-horse engines has been channeled toward economical, efficient, easily maintained enjoyment riding in a hull made just to order.

SPECIFICATIONS

Length Overall w/o Engines	29' 8"	9.04 m
Beam	9' 9"	2.97 m
Interior Cockpit Width	8' 5"	2.57 m
Deadrise at Transom	21°	21°
Fuel Capacity	130 gal	492 L
Freshwater Capacity	18 gal	68 L
Holding Tank Capacity	9 gal	34 L
Bridge Clearance (windshield only)	5' 0"	1.52 m
Draft Drive Up, Twin Engines	tbd	
Draft Drive Down, Twin Engines	tbd	
Dry Weight, w/Twin Engines	tbd	
Boat Certified Capacity	Yacht Certified	
Boat Certified Capacity w/gear	Yacht Certified	

YAMAHA OUTBOARD POWER

Twin F250 XCA, D.E.C. w/Sea Star PAS	250 hp	186 PkW
Twin F300 XCA, D.E.C. w/Sea Star PAS	300 hp	224 PkW
Twin F350 XCA, D.E.C. w/Sea Star PAS	350 hp	261 PkW

MERCURY OUTBOARD POWER

Twin 250 Verado w/PAS	250 hp	186 PkW
Twin 300 Verado w/PAS	300 hp	224 PkW
Twin 350 Verado w/PAS	350 hp	261 PkW

What prove to be, in memory, the adventures of a lifetime.

Who can say when first you heard? The multicolored minute when the open water spoke, and the dream began. Try now. To this day, can you report the moment? Can you reach back and listen again to that faint call, a sun-flecked whisper -- relentless as a mother's summons -- coming from just beyond the farthest thing a kid could ever hope to see.

At Cobalt, we build boats that answer the call. It is a relationship like no other – owners and their boats. It is that first grip at the helm that releases a sense of assurance down the spine. At that very moment...a promise is made. With each ride, with each cruise comes conversation, laughter and pure enjoyment afloat. At that very moment, a bond is formed on trust, but not just that, a type of trust that feels like family. And with that trust arises a certain lifestyle, an opportunity for families to come together and enjoy what life is truly about. It is a type of confidence that only a Cobalt can instill in its owner.

Our Cobalt family believes we have a unique opportunity to enrich life, to help create life-long memories, to arouse a passion for the boating lifestyle. We vow to work tirelessly, creating the most innovative, well-engineered, and best performing boats imaginable. We vow to let our work be consumed by every little detail, every aspect of fit and finish.

This classic tradition will continue in our daily pursuit to build not just boats, but deep personal possessions. We will continue on with our philosophy of compromising absolutely nothing, especially when it comes to constructing piece by piece a watercraft that will create memories of a lifetime.

We are excited to share Cobalt's passions and why we do what we do for our customers everyday. You drive us to perform everyday. Thank you and welcome to the family.

Customer Inspired Innovation

Swim Platform Functionality

Cobalt's swim platforms are large, welcoming and safe, suspended just above the waterline for easy use in all water-borne activities. Oversized, polished stainless steel tubing wraps every platform to protect the boat when docking. Cobalt's exclusive and patented swim step requires only two easy flips: down to use, back to stow. The swim step makes boarding your Cobalt a breeze, and provides a perfectly cool resting area. Illuminate the platform above or below the waterline with option choices to suit your desires.

Industry Firsts and Real-World

Across five decades, Cobalt brought innovative functionality to the marketplace. Across five decades, other marine manufacturers have seen fit to copy the thoughtful design that has always defined our boats. Again this year, we will show an entire industry exactly the way to go.

- ☞ A Cobalt first: the integrated bow eye with a scuff plate for protection from trailer marks
- ☞ Cobalt was the first stern drive builder to feature the walk-thru transom, today, all our models are equipped with either a single or dual aft passageway for easy boarding
- ☞ Stainless-steel adjustable poles to secure and tighten bimini tops with our innovative built-in turnbuckle -- no fabric straps here
- ☞ Quick-release fender clips utilize stainless steel sockets for perfect placement and convenient deployment
- ☞ Cushioned storage lids with double-knuckled hinges to hold the lids open for easy access to the compartment below
- ☞ Our often-imitated, never-duplicated flip-lip seat bolster – the captain sits high and comfortable, enjoying the full thrill of the ride
- ☞ A safer latch for the windshield walk-thru, holding the door securely open – yet another Cobalt first
- ☞ Perhaps the most imitated component of performance in the boating industry, Cobalt's extended running surface for quicker planing, firm and true turns, minimized bow rise, and greater lift at the stern

Finely Detailed Interiors

The technical word is “interface,” those sensory exchanges between boat and owner, those points of contact so fundamental to the enjoyment of a day on the water, so critical to the determination of a boat’s long-term value. Glance at any cockpit and witness the full effect of a Cobalt interior – straight, smooth, uniform, and very, very good looking. Better yet, cruise a Cobalt at first opportunity for some meaningful, memorable interfacing of your own.

Start at the helm, where strength meets stylish strength. Rock-solid fiberglass substructure rides beneath upholstered good looks, as optional Ebony Macassar trim adorns the helm’s metal panels. The instrumentation and its mountings borrow from aircraft and jewelry designers alike. Stainless steel switch mechanisms are firm, sure, and sturdy.

Cobalt upholstery involves the fingers. Butter-soft and bull-strong, as tactile as they’re easy on the eye, always double-fastened with both adhesives and staples, and stitched with meticulous precision. Underfoot, the carpet or optional Seagrass flooring is snap-down/snap-out, rubber-backed, backed again with skid resistant no-flex composite flooring under all, and heavy. Heavy far beyond any marine standard.

- ☞ Cobalt Glass Cockpit with Touch Screen Displays
- ☞ Precision-sewn interior details
- ☞ Double-needle stitching
- ☞ Seats that convert to a sun lounge
- ☞ Deep bow and cockpit seating
- ☞ The warmth and feel of premium materials
- ☞ A hand-crafted helm with detailed double-stitching
- ☞ Ebony Macassar trim
- ☞ Aircraft-inspired stainless switches
- ☞ Honeycomb composite core integrated in flooring – optimized strength-to-weight ratio, with improved sound and vibration dampening

Exceptional Methods of Construction

At Cobalt the hull means hand-work, with every layer rolled a by craftspeople who believe that yet one more careful pass just can't hurt. And so the layers accumulate, eight altogether on the hull bottom and a full sixteen at the keel. Reinforced with Kevlar® and then strengthened again with Spraycore®, the hull's structure hardens into the critical component of the legendary Cobalt ride

The quality of the mold equals the quality of the finish, and so hand-waxing follows after every other part. Old finishes are reworked after every ten parts. No power buffers are allowed, and therefore no unsightly marks or patterns are left behind. And because time in the mold ensures integrity, flexible strength, and year-to-year dependability, the long hours spent in the mold matter even more. Every Cobalt hull cures and cures a while longer – well beyond normal industry standards.

Cobalt longevity is obvious, some of the reasons why less so. Invisible composites, hyperlight and hyperstrong, compose every Cobalt transom. No wood there, not in that all-important forcefield. No wood either in the polypropylene structural honeycomb of the floor. Nor in the all-fiberglass stringers where a methacrylate bonding compound adds lifelong permanence. No wood in the water-impervious roto-cast seat bases.

- ☞ Z-Thane™ strengthening, protective barrier coat in the hull – A Cobalt exclusive
- ☞ Completely hand-laid hulls, reinforced with Kevlar™
- ☞ Composite construction on all structural components
- ☞ Cushioned lids with knuckled hinges for easy, open access to storage compartments large and larger still
- ☞ Exceptional hardware, largely stainless, over-sized, over-strong
- ☞ Graphics deep and strong in the gelcoat
- ☞ Integrated bow eye with a scuffplate for added protection
- ☞ Hand-lamination, up to 16 alternating layers of fiberglass mat and woven roving

Cobalt Transferable Warranty

Ten Year Structural Warranty

Hull & Deck Structure: Hull/deck joints, bulkheads, floor, transom, stringers, motor mounts

Transferable: Fully transferable

Five Year Bow to Stern Component Warranty

Components: All components manufactured or purchased (excluding hull and deck structural components)

Canvas: All canvas

Upholstery: All upholstery

Transferable: Fully transferable

Three Year Gelcoat Finish Warranty

Transferable: Fully transferable

*Service Assist - up to \$100 per claim

On-Water Towing: Applicable to Cobalt 5 year Bow to Stern Component Warranty or Engine Manufacturer Warranty

Hoist/Lift Out: Applicable to Cobalt 5 year Bow to Stern Component Warranty or Engine Manufacturer Warranty

Haul-Out: Applicable to Cobalt 5 year Bow to Stern Component Warranty or Engine Manufacturer Warranty

Dockside Repair Call: Applicable to Cobalt 5 year Bow to Stern Component Warranty or Engine Manufacturer Warranty

Engine Warranty – Manufacturer Direct

Volvo Penta Stern Drive: 2 + 3 Factory Protection Program – North America only (outside North America 2 Year Warranty)

MerCruiser Stern Drive: Five (5) Year Power of Protection Warranty - US and Canada only (International Coverage is regional)

Volvo Penta Diesel: Two (2) Year Warranty

Mercury Outboard: Three (3) Year Warranty

Yamaha Outboard: Three (3) Year Warranty

See written warranties and service agreement for specific coverages.
*Documentation will be required in order to receive the Service Assist benefit.

- Roswell R1 Subwoofers – 2ea Most Models
- Roswell R1 8" Tower Speakers, 2pr – RGB Light Ready

Tops and Covers

Color-matched and custom-tailored, Cobalt bimini tops, enclosures and tonneau covers are made of a premium acrylic marine canvas. This material is extremely strong and fade-resistant, with superior water resistance. Yet it breathes, resisting rot and mildew.

Bimini tops setup rock solid with Cobalt's easily adjustable stainless steel turn-buckle supports. Rigidity simply not found with the use of fabric straps.

The Premium Bimini Top with Easy-Fold stanchions (below) make storing or trailing your boat with the top in a lower position a simple one-person operation.
