COBALT BOATS

When the sun shines, it reigns.

First-class luxury, convenience and versatility.

On most boats, the party almost always takes place out back. But this isn't like most boats. Nope, we changed things up a bit with this one. The 25SC has the perfect party pad up front due to its wide bow shape. This beach-goer even has a forward entry ladder making it easy to hop off the front when it's time hit the sand for some beach volleyball.

When it's time to mosey on back aboard and take a ride to the next hot spot, you and your guests will be surrounded by stylish comfort and good vibes. That's because with every Cobalt, first-class luxury, convenience and versatility are all non-negotiables.

Let's say the party is starting to fizzle and you just want some peace and quiet. Step aboard and be amazed at how quiet the ride is – not a peep from the engine. That's because this brand new outboard engine was designed to be exceptionally quiet and smooth. Instead, hear the wind going through your hair and your crew having normal, conversation. Pretty nice, huh?

And it wouldn't be a party until the Captain does a little showing off at the end of the day. The impeccable handling of the 25SC makes tight turns at high speeds look like a piece of cake. Ending the day's activities on a high note, to say the least.

Tool Kit
Windlass, All Chain w/Anchor

Only A Cobalt.

America's Boat-Building Experts.

There's really nothing quite like a Cobalt. Since its first day on the water over 50 years ago, only a Cobalt has inspired a sense of ownership synonymous with accomplishment. With a reputation earned over the years as America's boat-building experts, Cobalt's commitment to standard-setting performance and luxury continues to make it much more than just a purchase – it's a destination. From the moment you know you want one to the moment you finally own one, nothing should compromise your life's pursuit. Only a Cobalt – three words poised to define the next generation of boat owners

The best made boats in America. It's been said the best boat builders you can find anywhere, are found in Neodesha, Kansas. This is where you'll find real boat people. Passionate boat people who understand how hard their customers have worked to have the very best. Yes, you'll find them here, square in the middle of this great country. Only here can be found the unique combination of innovation, craftsmanship, passion and values that can deliver on Cobalt's promise - to Compromise Nothing in delivering to its customers the absolute best boat in America.

A Step Ahead.

Customer Inspired Innovation.

Cobalt's reputation for innovation is grounded in its commitment to stay a step ahead of what the most discerning boaters demand.

From a relationship like no other – owners and their boats – comes innovation like no other. It's the promise each Cobalt boat makes to its owner. The same promise Cobalt has made, to bring unsurpassed innovative functionality to the boating marketplace.

Always copied, never outdone. With this proven reputation in design and engineering innovation, it's no surprise that time and time again, other boat manufacturers have seen fit to copy the thoughtful design and functionality that have always defined a Cobalt boat.

- The Cobalt Splash & Stow system of the A29 for handling and storing large yacht-style inflatables
- A Cobalt first: the integrated bow eye with a scuff plate for protection from trailer marks
- Stainless steel adjustable poles to secure and tighten bimini tops with our innovative build-in turnbuckle – no fabric straps here
- Flip-lip seat bolster – the ability to sit higher, with unobstructed views above the windshield
- **Brand New!** Patent pending E-Step Electronically Powered Swim Step. At push of a button, the step folds into the water or returns from the water to the stowed position
- **Brand New!** The Surf Gate™ wave is the best on the water from cleanliness, push and height of wave.

Meaningful. Memorable.

Finely Detailed Interiors.

As the best made boat on the market, there are plenty of attributes to point to as being *definitely* Cobalt. That said, ask a Cobalt owner what stands out about their boat, and you're likely to hear, "Oh, the details!"

Just glance at any Cobalt cockpit to witness the full effect of a Cobalt interior – straight, smooth, uniform and unmatched attention to detail – and the warmth and feel of premium materials throughout.

Moving to the helm - where strength meets style – rock-solid fiberglass substructure rides beneath upholstered good looks. The Cobalt Glass Cockpit touch-screens offer a level of control and information borrowed from aircraft designers. Stainless steel switch mechanisms are firm, sure and sturdy.

Butter-soft and bull-strong, Cobalt upholstery is as tactile as they are easy on the eye. Always double-fastened with both adhesives and staples, and stitched with meticulous precision. Underfoot, the carpet, Seagrass flooring or Sof-Trac marine mats are rubber-backed, backed again with skid-resistant, no-flex composite flooring under all.

Notable Meaningful and Memorable Interior Details

- Cobalt Glass Cockpit with touch screen displays
- Aircraft-inspired stainless switches
- Precision-sewn interior details
- Seats that convert to a sun lounge
- Deep bow and cockpit seating
- Hand-crafted helm with detailed, quilted, double-stitching
- Fresco Chil Vinyl on darker interior colors that stays 15 to 20 degrees cooler than traditional vinyls

The Making of a Legendary Ride.

Exceptional Construction.

The famous Cobalt hull means handwork, with every layer rolled by skilled craftspeople. Extensive number of layers on the hull bottom, overlapped at the keel to double the number of layers. Reinforced with Kevlar and then strengthened further with Spraycore, the hull's structure hardens into the critical component of the legendary Cobalt ride.

Because the quality of the mold depends on the quality of the finish, hand-waxing follows after every other part. Old finishes are reworked after every ten parts, and no unsightly marks are left behind. Finally, every Cobalt hull cures in the mold, well beyond normal industry standards, ensuring integrity, flexible strength and year-to-year dependability. Curing longer in the mold also gives a better mirror-like finish by reducing any distortion from the heat created during the chemical reaction of curing.

Cobalt longevity is obvious to all who know the brand. Some of the reasons for this might not be so obvious. Invisible composites – light and strong – compose every Cobalt transom. No wood in the transom, and no wood either in the polypropylene structural honeycomb of the floor. Also no wood in the water-impervious seat bases, nor in the all-fiberglass stringer grid where a methacrylate bonding compound adds lifelong permanence.

- Z-Thane strengthening, protective barrier coat in the hull.
- Completely hand-laid hulls, reinforced with Kevlar™ at the keel.
- Hand-lamination, with extensive number of alternating fiberglass mat and woven roving layers, and double thickness overlap at the keel.
- Honeycomb composite floor – rot proof strength with improved sound and vibration dampening. Composite construction of stringer grid and all structural components.
- Exceptional stainless steel hardware, over-sized and strong.
- Deep and strong graphics in the gelcoat.
- Integrated bow eye with a scuff-plate for added protection.

The Cobalt Transferable Warranty.

Peace of mind.

TEN YEAR STRUCTURAL WARRANTY

Hull & Deck Structure: Hull/deck joints, bulkheads, floor, transom, stringers, motor mounts

Transferable: Fully transferable

FIVE YEAR BOW TO STERN COMPONENT WARRANTY

Components: All components manufactured or purchased (excluding hull and deck structural components)
