

RSERIES

You really can have it all.

Sleek, sporty and luxurious, the all new R6 represents the next generation of R-Series boats from Cobalt. The perfect combination of excitement and elegance.

The Cobalt R-Series has always pushed boating forward in unexpected ways, ranging from a comfortable, efficient and stylish interior layout to sleek exterior lines with molded-in gelcoat graphics — not decals. The 25' 9" R6 sports many new and exclusive features including increased storage for water sports gear, larger Cobalt Glass Cockpit 10-in. Garmin touchscreen displays, a transom-mounted camera, and a built-in security locator function.

With an interior beam measuring wider than most competitive runabouts, the R6 offers a roomy, expansive interior. Add the wrap-around yacht style seating, and there's plenty of room for passengers and their things. Plus, the double-stitched upholstery now offers new cool-to-touch *Fresco Chil* vinyl on the darker colors, that provide surface temperature reductions of up to 20° on sunny days.

As with all Cobalts, the swim platform is the friendly back patio for social get-togethers. And the patented swim step makes it all so practical.

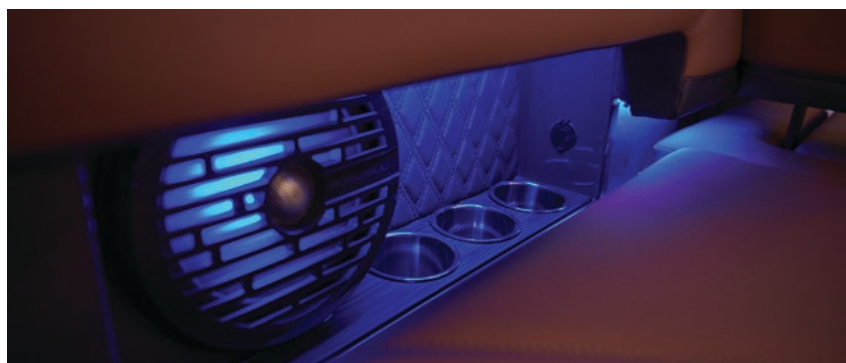

The dash-mounted phone cradle with wireless charging is a nice touch, as is the enhanced audio system with the well-placed standard six speaker configuration, but steps up a couple of notches with the Premium or Platinum options with dedicated tweeters, sub-woofers and mid-ranges for unrivaled sound.

A next-generation hull design brings structural enhancements such as all-composite stringers and bulkheads, and a more efficient hull design for greater stability and smoothness on the water.

These features, and many more, like several foldable tower options, an innovative new high-dock safety step, and a self-bailing cockpit make the new R6 truly the next generation bowrider!

COBALT BOATS *R6*

Side-panel with LED accent lighting, stainless steel cup holders, and detailed upholstery
