COBALT

SURRENDER YOURSELF  
TO THE PASSION.

# COBALT BOATS

*Compromise Nothing*

It is a relationship like no other – owners and their boats. It is that first grip at the helm that releases a sense of assurance down the spine. At that very moment...a promise is made. With each ride, with each cruise comes conversation, laughter and pure enjoyment afloat. At that very moment, a bond is formed on trust, but not just that, a type of trust that feels like family. And with that trust arises a certain lifestyle, an opportunity for families to come together and enjoy what life is truly about. It is a type of confidence that only a Cobalt can instill in its owner.

Cobalt Boats is a company that believes the best work is done by hand. And with heart. Those intricate tools allow us to craft with knowledge, imagination, a careful eye, the best boat on the water. We understand the role of technology in this digital age, but we know better than to let it drive us completely away from the personal touches that hand craftsmanship ensures. As we embrace this technology in many ways, we equally embrace the skillful experience of our associates. For almost fifty years, this has been our philosophy and we are not changing now.

Our Cobalt family believes we have a unique opportunity to enrich life, to help create life-long memories, to arouse a passion for the boating lifestyle. We vow to work tirelessly, creating the most innovative, well-engineered, and best performing boats imaginable. We vow to let our work be consumed by every little detail, every aspect of fit and finish.

This classic tradition will continue in our daily pursuit to build not just boats, but deep personal possessions. We will continue on with our philosophy of compromising absolutely nothing, especially when it comes to constructing piece by piece a watercraft that will create memories of a lifetime.

Here's to another year of building, with our own hands, a vehicle that glides across the water, a boat that utters luxury and perfection. So read on, we say. Consume yourself in the images and lyrics of a boating lifestyle. We are excited to share Cobalt's passions and why we do what we do for our customers everyday. You drive us to perform everyday. Thank you and welcome to the family.

## FINELY DETAILED INTERIORS

Cobalt interiors speak of timeless sophistication, a subtle elegance made possible only by the craftsmanship and by design that anticipates the needs and wishes of boaters worldwide. Here you'll find a seamless composition of luxurious upholstery paired with oil rubbed Macassar trim. These are the details that make everyone aboard marvel in her beauty and sophistication. All of this, engineered, designed, and crafted with Cobalt pride.

Move about and feel the warmth of our premium materials, bringing to life a space so real, so home. The feeling is relaxed as you glance through the textural variations and intricately detailed furnishings aboard. The finest marine-grade fabrics available wrapped around you in comfort, in style.

And stand behind the helm for an even more distinguished presence. Feel the details of the leather wrapped steering wheel, its smooth nature and ravishing digital design. Beneath the feet lies our stunning and durable Seagrass flooring, an option that expresses a modern touch. These finely detailed interiors, these little nuances create the best boats on the water...

- Precision-sewn interior details
- Double-needle tailoring
- Handcrafted helm with detailed stitching
- Ebony Macassar dash and trim package
- Digital multi-function gauges and aircraft-inspired stainless switches

Cobalt's Varadense seating construction utilizes variable densities of foam layers for exceptional support and comfort. Our composite seat bases provide a rot-free foundation.

# COBALT BOATS

## METICULOUS METHODS OF CONSTRUCTION

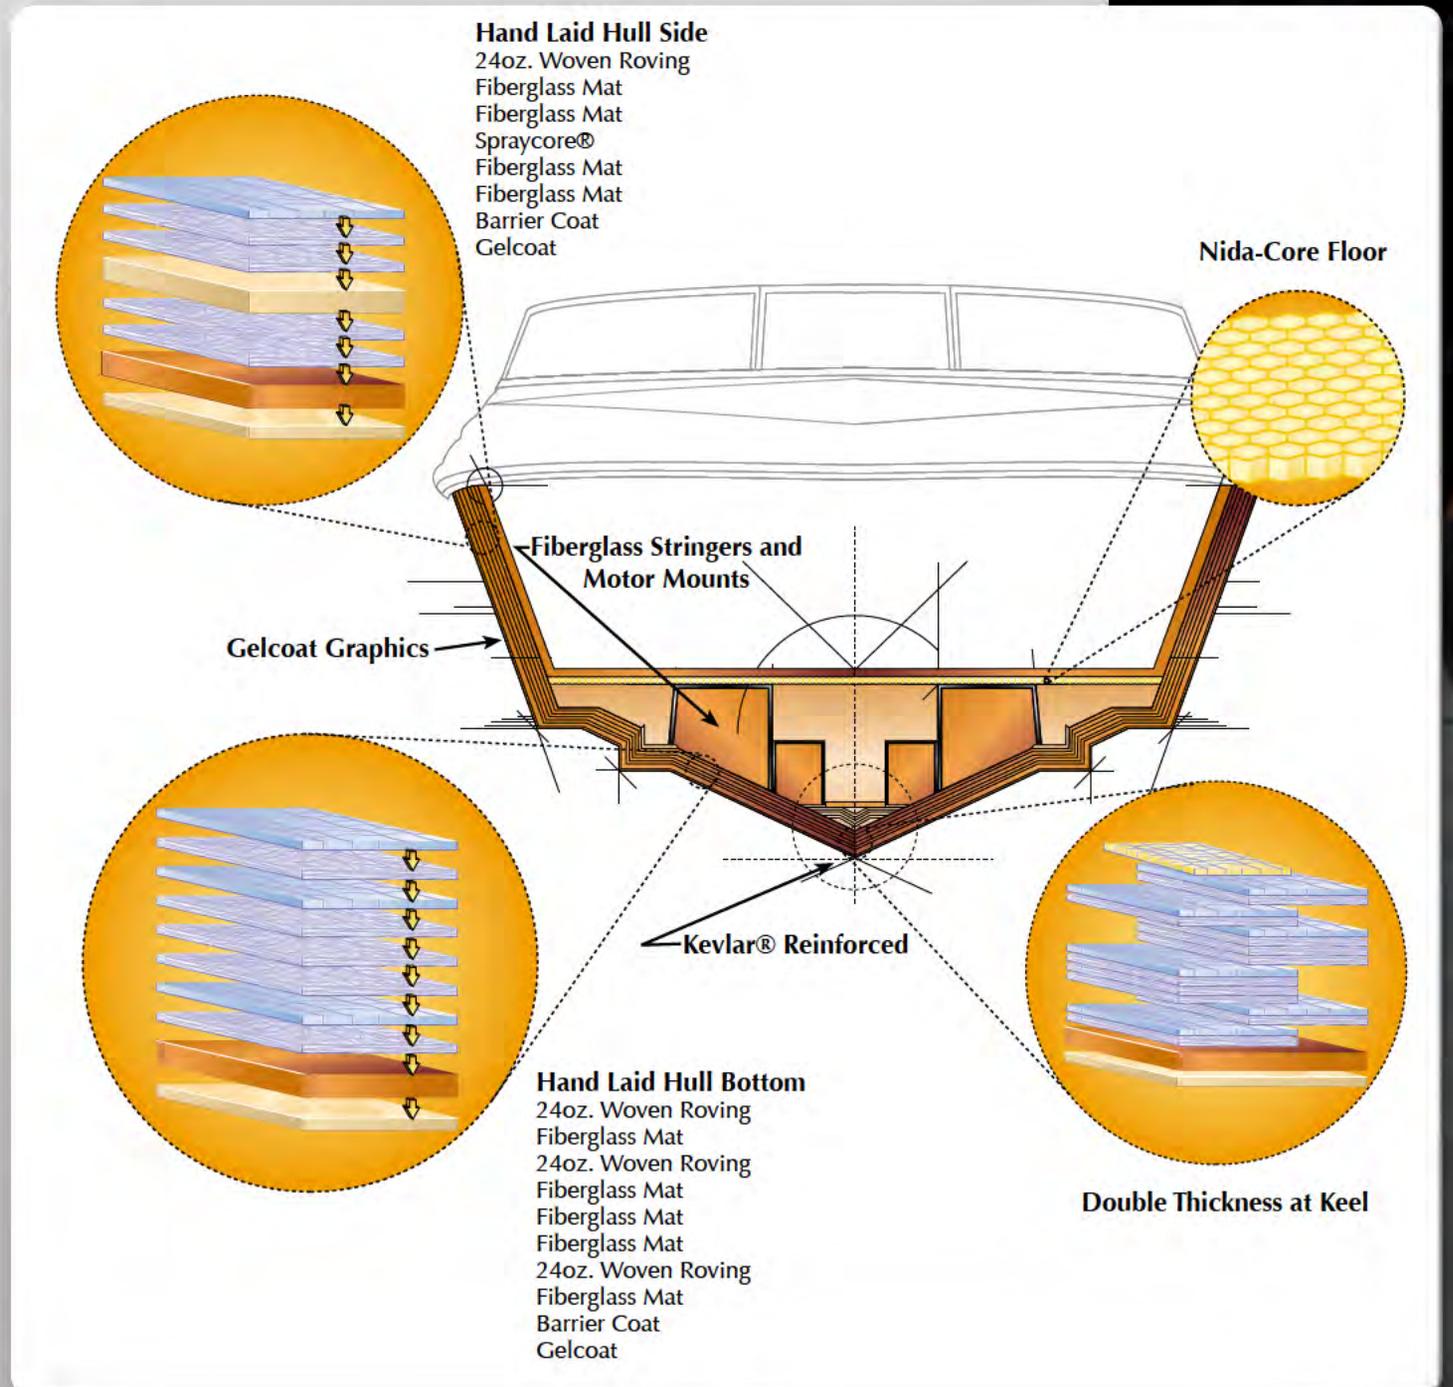

The beauty of a Cobalt boat runs as deep as the deepest ocean. Cobalt's lamination schedule begins with a premium buff-back gelcoat which provides the legendary finish. The barrier layer incorporates a shielding micro thin film for a brilliantly smooth exterior finish and unparalleled blister resistance. Cobalt laminates, by hand, up to 16 alternating layers of fiberglass and woven roving to build a structural hull designed and crafted for a lifetime of boating pleasure. The honeycomb composite core is integrated in our flooring surfaces to optimize strength-to-weight ratios and to maximize sound dampening and vibration resistance. Gelcoat graphic accents ensure that the lines will stay in style for many years to follow.

- Z-Thane™ Barrier coat – a Cobalt exclusive
- 100% hand-laid hulls, reinforced with Kevlar™
- Composite construction on structural components
- Cushioned lids with knuckled hinges for easy access to storage compartments
- Exceptional stainless hardware
- Integrated bow eye with a scuff plate for added protection
- Gelcoat graphics

Rest assured that the little details of construction do their work quietly, contributing to big enjoyment when no one but you need notice.

# COBALT BOATS

## CUSTOMER INSPIRED INNOVATION

### The Swim Platform

Cobalt's swim platforms are large, welcoming and safe, suspended just above the waterline for easy use in all water-borne activities. Oversized, polished stainless steel tubing wraps every platform to protect the boat when docking. Cobalt's exclusive and patented swim step requires only two easy flips: down to use, back to stow. The swim step makes boarding your Cobalt a breeze, and provides a perfectly cool resting area. Illuminate the platform above or below the waterline with option choices to suit your desires.

### Industry Firsts and Real-World Solutions

For almost fifty years, Cobalt has brought innovative functionality to the marketplace. Other marine manufacturers have followed suit. Again this year, we will show an entire industry exactly the way to go.

- **Stainless steel adjustable poles to secure and tighten bimini tops with innovative built-in turnbuckle, eliminating fabric straps**
- **Our often-imitated, never-duplicated flip-lip seat bolster – the captain sits high and comfortable, enjoying unobstructed visibility**
- **A safer stainless steel latch for the windshield walk-thru, holding the door securely open**
- **Cobalt's extended running surface for quicker planing, firm and stable turns, minimized bow rise, and greater lift at the stern**
- **Cobalt's Sof-Trac mat enhances the function of your swim platform with a comfortable slip resistant pad custom designed for each model**
- **Our fender clips utilize stainless steel sockets for perfect placement and convenient deployment without the need of a docking cleat**

# 10-5-3 TRANSFERABLE WARRANTY

The COBALT fully transferable warranty of uncompromising assurance remains the industry's benchmark.

## Ten Year Protection

---

**Hull & Deck Structure:** Floors, stringers, bulkheads, motor mounts, transom, all deck and hull joints

## Five Year Protection

---

**Engine:** Internally lubricated parts

**Stern Drive:** Internally lubricated parts in upper and lower housings, stern drive control system: power steering pump, power steering cooler, TVM module, TVM cylinder, joystick

**Intermediate Housing:** Shaft, U-joints, bearings

**Steering:** Helm, rack, cable, pump, seals and gaskets

**Power Trim:** Pump, cylinders, solenoids, switches, seals and gaskets

**Electrical:** Alternator, voltage regulator, electronic ignition module, ignition coil, starter motor, wiper motor, engine wiring harness, courtesy lights, docking lights, battery switch, battery isolator, bow light, horn, anchor light, spotlight, blower motor, electric hatch motor and switch

**Fuel Delivery:** Fuel injection control units and injectors, fuel injection pump, fuel injector rails, fuel delivery pump, flame arrestor

**Controls:** Control box, neutral safety switch, cables

**Instrumentation:** Tachometer, oil pressure, volt gauge, hour meter, speedometer, engine temperature, trim gauge, fuel gauge, air/water temperature, digital engine function display

**Accessories:** Air conditioner, cockpit heater, engine battery charger, compass, depth finder, transducer and wiring harness, generator, refrigerator, galley sink and faucet, shore power, stainless steel deck railings, stainless steel rubrail, stainless steel hardware, stereo, amplifier(1), stereo remotes, satellite stereo components, LED cabin lighting, trim tabs, freshwater pump, toilet, stove, microwave, windlass

**Electronics:** Radar, GPS, VHF radio

**Non-Defect Failures:** Overheating, pre-ignition, detonation, scored pistons, scored cylinders, tuliped valves, carbonized rings, heat collapsed rings, burnt valves, bent valves, warped heads, heat cracked heads and block (excludes freezing), thermostat failures, sensor failures

**Additional Benefits:** Choice of towing, dock side assistance, hoist and lift out or pick up and delivery. Taxes, shop supplies, lubricants, coolants, filters, spark plugs, hoses, clamps, belts, engine tuning, and lake/sea trial when necessary for a covered repair.

## Three Year Protection

---

**Gelcoat Finish:** Protection from stress cracks, air voids or blisters

**Upholstery/Canvas:** Protection from defective materials or workmanship

**Components:** Manufactured by Cobalt

*See written warranties for specific coverage. Coverage is subject to change and may vary outside the U.S.A.*

LIFELONG CONFIDENCE.  
ONE BOAT AT A TIME.

# 10 SERIES

**It's a Series that stands alone in its class. A true testament of design and effortless performance. It's the 10 Series, and we know you won't be disappointed.**

**200**

Step aboard the 200, a 20-footer that encompasses style, performance, comfort, convenience and accessibility. Free Space Reclamation (FSR), it's a term we use to define the maximized interior space in the cockpit which transforms to free space when you are out on the water. It's the simple luxury of space combined with convenience, comfort and style. The 200 is feature-rich with a true walk-thru entry at the transom, versatile sunpad, the revolutionary swim platform, and digital instrumentation that will keep on track from sunrise to sunset.

**210**

**220**

The 210 incorporates the same engineering and identical design philosophy of the largest boats in the Cobalt line. Nothing compromised becomes evident as you carve those tight high-speed turns. And what lies inside is the craftsmanship of a boat so detailed, we call it legendary. This one is for the record books – one of the broadest cockpit widths in the industry, creating a stable, dry ride. A spread-out-and-relax roominess that surrounds you and your guests. With long graceful lines and a flawless gelcoat, she always catches the perfect light.

Your first step aboard the 220 will have your heart thumping and eyes wide. Only in far larger boats would you expect to see this kind of spaciousness. Every square inch is utilized to accommodate guests and their gear. Here, you'll feel a sense of flexibility as you shift belongings from seat to seat. Thanks to Free Space Reclamation, what otherwise would be unused space, is transformed into stowage or space for vests, towels, and yes, more seating. It's that aluminum wakeboard arch that simply folds making your boat as athletic as it is roomy. And the swim step, envisioned for both safety and convenience, makes boarding a breeze.

And to really get the blood pumping, the 200 and 220 are now available with the new S interior. This "best of all worlds" seating configuration combines an oversized, all-in-one versatile cockpit layout with the amazing on-water performance that has become synonymous with Cobalt. The passenger seat can be positioned in a traditional, forward-facing manner, then quickly and easily flipped down, transforming the cockpit into a massive arena-style seating arrangement.

A REFLECTION OF  
PERFECTION.

# BR SERIES

## It's the series that welcomes relationships.

*R3*

Designed for comfort and maximized space, the BR Series allows everyone aboard to stretch out and relax, all while enjoying a world-renowned super soft ride. And when the occasion arises to charge across the water, well this series does that, too. With ease, tight stability in turns and full-throttle athleticism, it's the BR Series that brings style and class to the bowrider segment.

*R5*

The R models exquisite styling and spacious layouts provide game changing design cues. These trend-setting models represent traditional elegance and the smoothest of quiet rides. Sleek, low and aggressive. Cohesive in their integrated design, free-flowing in their easy functionality. The R models reaffirm the truth that Cobalt is your solution for versatility on the water.

*R7*

*296*

A boat for all seasons, for all occasions, for all the minutes that matter most – the BR Series has the answer to your every wish and demand. Maybe movement and speed are what matters most, or is it quiet, intimate rides that take you to that happy place? Perhaps you are seeking the ideal combination of spaciousness and luxurious comfort with agility and easy control. Maybe a wide-beam-massive-bow-riding machine is your desire because you're ready to calm the heavy seas with Cobalt's award winning ride.

*302*

*336*

Deep-down dependability and good looks can go far, but the BR Series deserves even more gloat. These models encourage a great weekend afloat – roomy enough for fifteen fun-havers and storage for days. Attractions astern involve a beach of sunpad, refrigerators and joysticks for docking and a touch-screen GPS leaving all the refinement and raw power in your hands. The striking elegance of any model in the BR Series will have you breathless, eager to step aboard and choose your pleasure.

All the components of an ideal day on the water – with not an inch of unused space – utters perfection and sophistication that exudes only Cobalt's DNA. Now the choice is up to you. Go ahead, your soulmate is waiting.

SMILES COME  
EASY HERE.

Helm station with full digital instrumentation, in-dash GPS, engine systems display, and (DTS) digital throttle and shift.

Large bowrider design with a mid-cabin and separate head compartment.

# 336 BR SERIES

The wide space of the 336 cockpit shown in Terra Brown interior color selection with the snap-in carpet. Also shown, the easy hide-away cockpit table.

Enclosed (port side) head compartment features hot and cold pressure water sink/shower, a shower seat, and available VacuFlush head.

Easy access to the starboard side mid-cabin located below the helm station.

The 336, a large hybrid bowrider, has a full cuddy cabin to starboard and a separate head compartment to port.

The spacious starboard side cabin features a leather sofa with slide out berth, and is available with air conditioning with reverse cycle air conditioning/heating, cabin entertainment package (TV/DVD), and custom wood floor.

# SD SERIES

The design and engineering conceptions for the SD Series center around three basic principles – functionality first, versatility second, and flexibility third.

**24SD**

**26SD**

These key ingredients fused together with Cobalt style create the ultimate boating experience. It's the blending of our boat-friendly features combined with just the right pinch of luxury. Range Rover-ish interior appointments adorn the cockpit, while Jeep-like ruggedness assures she is seaworthy.

The 24SD sets the industry benchmark: the easy quickness to plane, the inimitable ride, and the stability in turns that you expect with fifty years in the making. With Cobalt, there are always choices galore, and the SD is no exception. If its sun protection you desire, the SD has the choice you deserve – an arch, folding or stationary, or choose our popular and sturdy bimini that has solid stainless stanchions, eliminating the noisy buzz created from using a strap. Choose the cockpit galley with sink – or maximize your seating area with a comfortably placed seat and insulated cooler. Choose to stand in the bow with filler cushion out, or fill the area for maximum sunning pleasure. Flip down those armrests and relax. Climb over the bow with the beach boarding ladder and go sea shelling. As you step toward the transom, the family and pet friendly swim platform with patented flip-down step will keep you and all aboard entering and exiting safely. It's all here, everything necessary to keep the crew at ease, at a pace appropriate to your needs of the moment, helping you create memories that will last a lifetime.

Elegance with a dash of rugged decadence and a dose of modesty, the 26SD is ready to accept all challenges, and she does it with style and class. Even more impressive are her inner values. The 26SD will answer your every demand for performance, adaptability, genuine innovation in the service of an entertaining and confident day on the water. Ready with all the wide-open spaces of a deck boat, waiting with all the power and agility of a sport boat, the 26SD is every bit as much about skiing and wakeboarding as about quiet conversation on a leisurely cruise. The 26SD's Carolina flare and high freeboard will create a ride as comfortable in coastal chop as on a mirrored lake. A hull equipped with the extended running service delivers instantly on plane and controlled stability in turns. Cockpit and bow alike are multi-taskers, the seating convertible every-which-way, the head compartment large enough to be a changing area, and a stereo with technology of the day.

With excellent driving dynamics and a high level of user comforts, the SD Series pampers your family and crew with first-class luxury found in every Cobalt. Isn't that why you are here to begin with? You've earned it. The Cobalt SD Series – leadership has its privileges.

FASHIONABLY LATE NEVER  
LOOKED SO GOOD.

R5<sup>WSS</sup>

R7<sup>WSS</sup>

Fused with the intrinsic DNA of traditional Cobalt models and the wakeboarding advantages of a sterndrive, we present to you the Water Sport Series. WSS stands for everything that's fun on the water! Flexibility of speed when you need it, and power when demanded, the WSS delivers day in and day out. Now you hold the power to adjust wakes with the touch of a trim switch, giving both captain and boarder complete flexibility. What's in the name of WSS?

**Water Sports Tower Choices with Bimini Top** – They are solid, sturdy and pro-athlete strong with life-long good looks, heavy-gauged anodized aluminum and stainless steel, precision-machined billet fittings. The WSS towers and arches are designed with integrated billet board racks for your favorite boards and with a flip of a swivel-lock, swing the racks inboard for easy access. And we can't forget the optional tower lights, and driver's rear-view mirror, and directional speakers with 360 degree flexibility, well, you see this is not just another wakeboard want-to-be.

**Exterior Graphics** – Our Design Your Dream tool has thousands of color combinations to create your own masterpiece. All showcased by the chrome WSS hull emblem and a WSS badge at the transom. Customize your Cobalt simply because – you deserve it.

**Interior Styling** – WSS customization continues inside with finishing touches that include WSS badging and a choice of color-matched piping complimented by our champagne vinyl, an offering exclusive for the WSS. Finally, the dash panel is highlighted in a carbon tone for the finishing touch.

A DAY WITHOUT  
AN AGENDA.  
GAME ON.

The Water Sport Series from Cobalt is available on these select models providing you the opportunity to select the seating, features, size, and styling of your preference, while also meeting your boating needs. And at the end of the day, when the water sports activities for the day are behind you, rest assured you will be riding back to the dock with the legendary ride of a Cobalt.

# 3 SERIES

**The 3 Series has even lifelong boaters basking in its refinement and beauty.**

243

273

The 243 is ready to spend the night, or even the weekend. This beautiful craft offers a retreat of comfort so rich, so sumptuous. A study in both long-term value and immediate gratification giving you years of enjoyment and pleasure. It's those convenient amenities that allow you to seize every moment, every second. The pure and simple embrace of its enduring value wraps itself around you as you stand tall at the helm. It is the spaciousness for both captain and crew that enables easy movement from stem to stern. Wait, there's more – a dinette table, filler cushions, a television with DVD player, a heater. Ask and you shall receive. And that head compartment whose entry door is a true testament of the finest engineering. If you think that is it, you are mistaken. Venture to the ample storage and cockpit area where you will find sink console highlights gleaming in sophistication. To top it off, an oversized deck hatch and opening portal to let the fresh air mingle. Here is a boat bringing luxurious textures and well-dressed surfaces together with hard functionality. And at the end, you really can have it all.

Deep breath in, deep breath out. Are you ready? Five decades in the making, the 273 challenges every assumption and preconceived notion about boat-building. This boat handles all your lofty wants and weekend desires. The grace, the romance, the glamour – all yours aboard the 273. Its power beneath forces an elegance afloat. As we hypothesized and cross-examined, it was evident the 273 would speak to the needs of every owner. You need luxury, utility, convenience and comfort. You need performance and execution. It's reliable. Spacious. Thoughtful. All while gliding like silk on the water. Any way you look at it, its genius. Pure genius.

SETTLE IN.  
IT ALL STARTS HERE.

Head compartment with optional electric porcelain toilet.

Cabin filler cushions in place, shown with the Coastal Blue colors selection.

Optional Euro-style folding foredeck step.

# A SERIES

**The A Series was engineered to win, to break those stereotypes of what a performance enthusiast desires. Representing genuine innovation, the purest of lasting impressions and a no-shortcut attitude, Cobalt's craftsmanship and artfully sculpted lines are simply first rate.**

A25

A28

A40

And it begins with the A25. Her design creates the running surface of a much larger boat, with consequent reduced bow rise at acceleration, more stability in turns, and even more comfort at cruise for all aboard. Knowledgeable boaters will recognize the new features specific to more enjoyable days on the water. From the hydraulic deployable swim platform and transom speakers to the digital instrumentation at the helm, from easier access at the stern to all-new fender storage. Design your own helm with a Cobalt touch screen GPS. Notice the easier boarding, its revolutionary extensions of storage in both access and convenience, the flexibility of the seating arrangements, the ergonomics throughout.

It's the guiding hand of Cobalt's imagination that will take you to dream land. The larger, even roomier, limo-like A28 has been built with its three feet of extra space amplifying its proven virtues, none more important than a ride now approaching perfection. But we begin with looks, the handsomeness of an inverse hull whose complexity only yacht makers have seen fit to attempt, the sweep of a profile that can come only from Cobalt's craftsmanship. The A28 interior will wow, as a soft aura of luxury surrounds you and your guests. The bow is broader in the beam, roomy and then some, with immediately reconfigurable seating. More practicality here too, in the added head compartment and yet more storage.

In the quantum leaps in technology, among all its genuinely new features, the A28 shows forth hour upon skilled man-hour of refined Cobalt craftsmanship – in the upholstery, at the helm, in the rubbed perfection of the gelcoat – and the payoff comes in years of reliable, worry-free enjoyment.

The A40 is the ultimate day-boat. Designed with luxurious entertainment as a driving mission, and class leading style as the exclamation point. Nothing compromised in the glass cockpit inspired by Yachts twice her size. The hard-top sculpting lines that reveal her sleek styling. From the hydraulic platform to the sunpads on the foredeck, the A40 exudes a reflection of her owner, a reflection of excellence.

The A Series perfects what could be an ordinary boat ride excursion. Who knew that feeling of protection, power and freedom would feel so good? It's that feeling of assurance, that feeling of a Cobalt. Give her an A, she deserves it.

BRILLIANT BEAUTY.  
TO GO.

# A25 ASERIES

The mid-berth with available LED TV, converts from lounge area to sleeping berth.

Head / shower compartment features a VacuFlush toilet, glass basin style sink, and a separate enclosed shower.

# OPTIONAL EQUIPMENT

Consult your Cobalt dealer as equipment and specifications are subject to change without notice.

1

1. **Oil Rubbed Ebony Macassar Dash and Trim package** - A handsome addition available on most all Cobalt models.

2. This head compartment features both the **Sink Console** and the **Electric Porcelain Toilet**.

2

3. **Throw Pillows Cockpit** option available on many Cobalt models.

3

4. The **Dinette Table with Bow, Cockpit and Sunpad Receptacles** provide easy use in any area as needed.

4

5. **Aft Walk-Thru Filler Cushions** offer the option of a full beam sunpad on select walk-thru transom models. Styles may vary.

5

6. Seating convertibility with **Bow Cushion Inserts**. Styles do vary depending on the model.

6

7. **Cockpit Galley with Sink** - Unit replaces seat and allows the addition of an optional refrigerator. Shown in a 24SD.
8. **Stainless Steel Foot Tread** (helm only) in custom fit shapes for most all Cobalt models.
9. **DelMar Helm Captain's Chair** with flip-lip bolster. A premium upgrade for all Cobalt captain's chair interiors.
10. The **Aft Walk-Thru Gate** provides an added measure of safety for little ones aboard. Style varies depending on the boat model.
11. **In-Dash Touch Screen GPS** - Some models offer optional weather information. Units vary with specific application.
12. **Zero Off Cruise Control**, an ideal addition for maintaining a precise speed during water sports activities. Available in most all models.
13. **Sof-Trac Mat** provides the added safety positive footing, while giving a comfortable feel under bare feet.
14. **Stainless Steel Flagpole with Flag** mounts securely with a twist lock deck fitting.
15. Only the innovation of the A Series could bring you a **Hydraulic Swim Platform** in a runabout size boat.
16. The Cobalt exclusive and patented **Flip-Down Swim Step**.

# OPTIONAL EQUIPMENT

Consult your Cobalt dealer as equipment and specifications are subject to change without notice.

1. **Aluminum Forward Folding Arch with Bimini**, available in white or black finish. Also shown is the optional **Frameless Windshield** for model A25.

2. **Aluminum Forward Folding Arch with Bimini** folds easily with manual gas assist cylinders or by electric actuators.

3. Add convenience of the **Remote Courtesy Lights** with a key fob control.

4. Water Sports Series optional **Tower Speakers and Tower Lights**. Available on most WSS models.

5. Water Sports Series **Tower Wakeboard Racks**.

6. **Stainless Steel Docking Lights** for after dark maneuvering about the marina.

7. **All chain Windlass with Anchor** - large yacht style convenience.

7

8

- 7. Style and functionality of **Underwater Lighting** and **Swim Platform Transom Lighting**.
- 8. **Recessed Oval Logo** - An alternative one-piece hull-side badge.
- 9. **Stainless Steel Fender Clips with Line** - The quick and secure way to deploy fenders.

9

10

- 10. The **Transom Shower** provides an added convenience of a quick freshwater rinse-off.

11

12

- 11. **Stainless Steel Bow Rails** - An extra measure of safety with elegant lines to a 10 inch height at the bow. For cuddy models only.
- 12. **Windshield Wiper, Starboard** - An automotive style wiper in corrosion resistant construction. Available on select models.

13

14

- 13. **Lenco™ Trim Tabs** with lighted position indicates at the dash and the added feature of being self-retracting on engine shut-down.

- 14. **Air Compressor** power inflater for water toys.

15

16

- 15. The clamp-on **Driver's Rearview Mirror** is extremely solid and secure. A single tension knob will loosen the clamp and arm articulation for adjustment.

- 16. **Battery Tender/Charger** is mounted out of the way in the engine compartment with the exterior power connection conveniently located within easy reach at the transom walk-thru.
