MONSOON

5.3L & 6.2L STERNDRIVE POWER

MONSOON Engines

Thanks to a close partnership with GM Marine and following the strictest industry standards, Monsoon engines are produced in a state-of-the-art engine facility in Tennessee. Technology is the key behind our new ultra-clean engines. It all starts with direct injection, which bypasses the air intake manifold and injects fuel directly into the combustion chamber, making for a cleaner, more controlled and complete burn resulting in improved fuel economy.

- Ultra Low Emissions
- Cast Aluminum Block and Cylinder Heads
- Cast Aluminum Marine Oil Pan
- Dual Equal Cam Phasing – 2V
- Mess Free Oil Changes with Cartridge Style Oil Filter
- Reversed Fresh Air Induction
- Reversed Composite Intake Manifold
- 11:1 Compression
- Closed Cooled ½ System
- Single Point Drain
- Custom Hydrophobic Flame Arrestor

MONSOON Throttle Control

- 4 throttle control functions available for non-surf models
- Trim Assist – Returns drive to down for launch and return to idle and moves to preset set point above 20mph. Button light indicates system is active.
 - Cruise Control – speed is set and maintained at the push of the button. Button light indicates system is active.
 - Cruise Speed Up/Down – changes engine cruising RPM by 250rpm increments.
- Surf Models have trim assist only, with the advanced cruise control options integrated into surf system on the Garmin touch-screens.
- Integrated “kill” switch, Neutral Lock out and Trim up/down

5.3L & 6.2L STERNDRIVE POWER

Award-Winning Performance, Unmatched Reliability

The Monsoon line of engines, the 5.3L, and 6.2L, were developed to offer unmatched performance, fuel economy, reliability and sound reduction. The 6.2L even has the lowest sound level at various RPM's and fuel economy levels comparable to smaller engines. Working with industry leaders like GM® Marine, Roush®, Davinci®, and McLaren Engineering® to design and perform the research and development necessary to introduce a line of direct injection engines to the boating industry like no other.

- **MONSOON 5.3L Direct Injected:** TORQUE - 400 FT-LBS @ 3800 rpm • POWER - 360 HP @ 5600 rpm
- **MONSOON 6.2L Direct Injected:** TORQUE - 460 FT-LBS @ 3800 rpm • POWER - 430 HP @ 5600 rpm
